REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process for fluid coking a heavy oil containing sulfur compounds in which the cold coke is burned at a temperature from 550° to 630°C such that the emission of gaseous sulfur compounds is reduced as compared to when the temperature is about 645°C. The closest prior art of Pfeiffer does not suggest the combination of the sulfur containing heavy oil and the claimed temperature range of the burner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter D. Griffin whose telephone number is (571) 272-1447. The examiner can normally be reached on Monday-Friday 6:30 to 4:00 with alternate Fridays off.
